MARCH 9–10, 2010 | WASHINGTON, D.C.

## DAY ONE

### How Global Diversity Impacts the Domestic Diversity Agenda

DiversityInc will hold a one-day interactive learning session, followed by a gala dinner where we will announce The 2010 DiversityInc Top 50 Companies for Diversity®.

During the day, we will have subject-matter experts discussing a range of global diversity issues, focusing on how they will impact almost every domestic corporation. We will break several times during the day to have small-group, professionally facilitated discussions. The wisdom of both the subject-matter experts and the diversity-management executive discussion will be captured and released in a report to be given to all attendees.

We will also release the results of our groundbreaking global-diversity research, which examined both diversity demographics and diversity-management best practices in 10 countries.

The day learning session is by invitation only—no consultants are allowed. We target a relatively small peer audience (150 people) and seating is at small round tables. We mix the groups during the day, so you'll be able to interact with different groups of professionals. This session is designed for senior-level executives at larger corporations who are running a relatively sophisticated diversity-management operation.
